

IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

This notice contains important information regarding your drinking water.

MONITORING REQUIREMENTS WERE NOT MET FOR SIERRA FOOTHILL CHARTER SCHOOL

Our water system failed to monitor as required for drinking water standards during the past year and therefore was in violation of the regulations. Even though this failure was not an emergency as our customers you have a right to know what you should do, what happened, and what we did to correct this situation. We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not drinking water meets health standards. During the months of October and November We did not collect routine bacteriological samples and therefore cannot be sure of the quality of our drinking water during that time.

There is nothing you need to do at this time.

The table on the next page list the contaminants we did not properly test for during the last year, How many samples we are required to take and how often, how many samples we took when samples should have been taken and the date on which follow up samples were taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When all Samples Should have been Taken	When Samples were Taken
Bacteriological	Once a Month	One (1)	October and November	December 2020

If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

What happened? What is being done?

In the months of October and November 2020 the bacteriological testing at Sierra Foothill Charter School was missed. The reason for this was a miscommunication between employees as to who was responsible for the testing.

The corrective action was an employee meeting to discuss lack of communication and ways to combat the issue to prevent future failures. I believe we have accomplished our goal and failures of this nature should not occur again.

Monthly routine samples were taken on December 8 from the office and December 21 2020 from the tank.

For more information, please contact Ken Price at (209)742-0275 ext 1319

Please share this information with all other people who drink this water especially those who may not have received this notice directly. This notice will be on the school bulletin board.
